Objective Frankfurt & Seven Days to the Rhine: War in Europe in the 1980s

In this third installment of the Seven Days to the Rhine Series, we analyze the situation on what would likely have been its main front inside Germany: the center, which was defended by the US Army's V Corps, and that was to be attacked by the Soviets' elite spearhead Eighth Guards Army.

Israel Rules the Waves: The Israeli Navy during the Yom Kippur War

Operation Sangaris: French Intervention in Central Africa

France has intervened numerous times in the Central African Republic (CAR) over the previous decades and continues to maintain a military presence there today. While CAR is in a remote part of Africa, it remains a strategic pivot, where military operations provide many lessons for campaigning in an era of small wars.

Chechnya 1994–1996

After the 1991 collapse of the Soviet Union, the Chechens decided to seize their sovereignty, and in 1992, under the leadership of Dzhokhar Dudayev, declared independence. Given the chaos of the immediate post-Soviet years and Russia's collapsing economy, they expected that Moscow was too weak and had too many issues to worry about to stop them. They were only partially right.
